Using a regular routine of weekly and monthly interactive exercises, our programme is designed to motivate and engage students, enabling them to achieve more. Plus, teachers can easily login and monitor the progress their students are making - this makes the programme a powerful homework tool.

We are registering schools from all around the country for the free trials of [AngloLinguist.com](http://AngloLinguist.com). If you are interested in joining our online English practice programme in September, it's not too late to register for this free trial period. To arrange a free trial please send me:

We will then arrange for the simple Free Trial registration information to be sent. As always, please let me know if you have any questions at any time. With warm regards,
